Continuation of 3. NOTE: The amendment adds limitations which were not claimed previously. The first predetermined...with constant velocity and different values of resin temperature automatically altered successively" raises the issue of new matter.

Continuation of 11. does NOT place the application in condition for allowance because: Applicant argues that the finality should be withdrawn since the rejections do not appear to address the claims as they were presented in the Aug. 8, 2005 amendment. The examiner is unclear as to what claims were not addressed. All the claims in the Aug. 8, 2005 amendment were rejected over Kamiguchi et al and over Nunn.
